Introducing
PiCTOR ☆
a new, truly portable and versatile approach to ophthalmic imaging.

Superior Versatility
Examine both posterior (non-mydiatic) and anterior (external) segments with two easily interchangeable modules

Maximum Portability
Lightweight and compact, Pictor is great for examination in situations not possible with a fixed system

Simple Integration
Providing standard high resolution jpeg files, Pictor connects seamlessly to your computer

Zimmer | dental

Zimmer Dental is empowering clinicians with trusted clinical solutions.

Providing high quality leads, strengthening brands, and educating a targeted audience of dental professionals about your products and services are all ways Dentalcompare will help you grow your business.

Drive Sales Leads

Dentalcompare’s advertising channels are designed to increase product interest and drive more qualified sales leads. By prominently displaying “get quote” buttons in all advertising options we enable dental professionals to quickly and easily contact you.

Communicate Product Value

Dental professionals turn to Dentalcompare when they are actively researching products to purchase. By giving them in-depth product information, we provide an active audience of informed decision makers.

Educate Your Customers

As dental products and technologies evolve, clinicians turn to Dentalcompare to obtain the most recent information. We help you educate dental professionals on new technologies that can improve their practice, and assist them in finding the products and services that best meet their needs.

For more information
